

NEC IT5035 Document Solution

Productive, Digital, Networked and Easy to Use

The modern office environment requires integrated document processing solutions that are multi-functional, efficient and easy-to-use. With a powerful laser engine, an interactive touch panel and a full range of networking functions, the NEC IT5035 is designed to meet the needs of the most demanding workplace.

A multi-talented digital copier, the NEC IT5035 also performs as a printer, scanner and fax machine. With a fast first copy time and the ability to produce 50 copies-per-minute, the NEC IT5035 is a productivity-enhancing star. Your document solutions are complete with finishing capabilities that include stapling, sorting, hole punching and booklet saddle stitching. Several finishing configurations help meet your professional business needs.

An interactive touch screen panel simplifies operation and helps to simplify the deployment of numerous features and functions. Universal paper trays are easy to access and hold up to ledger size 11" x 17" pages. Consumable replacement is simple, clean and quick.

As a digital product, the NEC IT5035 offers "scan-once print-many" reliability. High

resolution and image enhancements produce high quality image reproductions.

With network functions available to everyone on a networked PC, printing, scanning, faxing and copying are available for your entire office staff. Your NEC IT5035 becomes a sophisticated document publishing resource.
